The Canadian Parks and Wilderness Society is Canada's only charity dedicated to the protection of public land, freshwater and ocean with a strong national and regional presence across the country. We are Canada's leader in conservation with 60 years of success based on our expertise, public education and advocacy, relationships and local knowledge. We are a credible, trusted, knowledge-based, nationally coordinated, collaborative organization, focused on conserving nature to respond to the dual crises of accelerated biodiversity loss and climate change. Our vision is that at least half of land, freshwater and ocean in Canada is permanently protected to sustain nature and people for current and future generations.
